Internationalization Policy

Internationalization policy of Harran University includes establishing, developing and sustaining an effective system aiming to achieve the following objectives with an approach that eliminates the borders in the academic field, and that considers accessibility, universal inclusiveness and sustainability of ethical values;

* Developing education and research processes at an international level in cooperation with stakeholders,

* Planning and implementation of activities that increase the international recognition, visibility and accessibility of the University,

* Improving activities to increase international events by ensuring the diversity of collaborating international universities,

* Increasing the quantity, quality and country diversity of international students who are accepted to our university and receive education,

* Increasing the infrastructure and facilities that will ensure the preferability of our university in student and faculty exchange programs,

* Encouraging the exchange of students, faculty members and administrative staff between international universities,

* Ensuring that the goals and objectives set in internationalization processes are adopted and internalized throughout the university,

* Ensuring social, cultural and economic interaction between countries through internationalization activities,

* Participating in international cooperation to provide solutions to global problems and to pursue sustainable development goals
